FAMILY VIOLENCE PREVENTION INITIATIVE

Audio-Visual Catalogue

The Family Violence Prevention Initiative Resource Centre maintains a collection of over 2000 audio-visual and print materials available on loan to the public free of charge and also distributes a wide range of publications produced by the Initiative, including fact sheets, brochures, semi-annual newsletters, procedures manuals, directories and other resource materials. These items are also available free of charge to the public. Videocassettes and audio cassettes can be loaned for up to fourteen days and print materials are loaned for thirty days. The Resource Centre also provides a search capacity with links to all Nova Scotia university, public, Legislative and government libraries, as well as the National Clearinghouse on Family Violence. Our web site information is available for download with "hot links" to other relevant sites.

The material in this catalogue is divided into four sections: audio cassettes by subject heading and audio cassettes by title, and videos by subject headings and videos by title. This collection covers a broad spectrum of issues related to family violence and is a practical resource for educators, researchers, trainers, community group workers and other professionals. Other subject headings in this collection include bullying, conflict resolution, substance abuse, and media violence. The audio-visual materials are relevant to a diverse audience, including school-aged children, students, victims and professionals. As this collection is being updated on an ongoing basis, new editions of this catalogue will be available to users on a yearly basis. A catalogue of our print materials is also available.

If you are interested in borrowing any of these materials or require any additional assistance, please contact:
